REMARKS

In the outstanding Office Action, the PTO took the position that non-coding sequences in Figures 1-3 need sequence number identifiers in the Brief Description of the Drawings. Applicants respectfully disagree on grounds already of record. However in the interest of furthering prosecution, Applicants submit herewith a revised Sequence Listing as required and related papers.

Attached to this submission is a Paper Copy of Sequence Listing (50 pages).

Applicants submit that the instant amendment to the specification to add requested sequence identifiers and the addition of the attached new sequence listing add no new matter.

It is noted that newly added SEQ ID Nos. 22, 23, and 24 are presented in Sequence Listing in the 5' to 3' directed as provided by the rules. 37 CFR 1.822 (c) (5). However, as shown in Figures 1-3, the sequences are presented in the 3' to 5' as is the convention and practice in the field of the invention.
